ClearPark for osCommerce Multi Currency edition

EUR423.50 (including 21 % tax)

ClearPark for osCommerce is a payment module for osCommerce that use the ClearPark redirect fast track with addendum solution from ClearPark.

This payment module allows to you to process Credit Card such as Visa, Master Card, American Express but also debit cart such as Bancontact/MisterCash, KBC, CBC, DEXIA, ING.

It is delivered with English, French and Duch language files.

This Multi Currency edition is able to manage multiple ClearPark identifier and select the one that correspond to the order currency.

Email notification

In addition to the normal osCommerce processing, the payment module contain an email notification that is sent to the administrator of the website when ClearPark send notification.

Security

In addition to security required by ClearPark, this module also contains a special feature to ensure that call back scripts are only called from ClearPark.

This special feature consists in the verification of the IP originator. The IP is checked against a specific list of authorized IPs that is configurable or using the ClearPark domain name in case where the IP address change.
