ClearPark for VirtueMart Basic Edition V1.0 for Joomla 1.5

EUR181.50 (including 21 % tax)

The "ClearPark for VirtueMart" basic edition is the solution to add the ClearPark payment processing into VirtueMart. It is provided with a very simple configuration interface that allows you to enter your ClearPark indentifier and security token with a user freinfly interface.

With this solution, in few minutes, you have a payment processing solution using ClearPark payment service provider. All you need is to sign a contract with ClearPark to receive your merchant identifier to start processing payments.

The "ClearPark for VirtueMart" basic edition works with a single website. If you want to share the same ClearPark merchand Identfier between multiple website, see the Extended edition version.
