ClearPark for VirtueMart Extended Edition V1.0 for Joomla 1.5

EUR242.00 (including 21 % tax)

With "ClearPark for VirtueMart" extended edition, you can process payment on multiple website using the same ClearPark merchant identifier.

This allow to minimise your cost with sharing the same ClearPark merchant identifier.
This is a very good solution when you have multiple website that needs to process payments.

The "ClearPark for VirtueMart" extended edition is compliant with ClearPark Redirect Fast Track with addendum solution and all the scripts to perform the verification , provide extra information to clearpark and process the notification is provided. In addition, a configuration interface is provided to allow all the website defines their parameters.

The payment reconciliation plaform that verify the payment, provide extra information to clearpark and dispatch the notification to the effective website can works without VirtueMart.
