Amoung the references, we have realized multiple websites in which we have included our "ClearPark for VirtueMart" module:

- www.1barber.be
- www.jms2win.com and www.joomla-multisites.com
     They propose products to enhance Joomla 1.5 in a multiple domain management with a single and shared joomla installation.

- www.faq2win.com
     It porpose a joomla component to display section, categories and articlesin a FAQ layout.

We have also managed large projects such as the creation of an intranet for car delear of "Honda Europe" located in Paris, creation of a full EDI (Electronic Data Interchange) system for the FNAC at paris to allow them exchange a lot of information with their suppliers.
